PROJECT

FOOD ODERING APP

01/2022 - 02/2022

- Our purpose was to provide the app to street vendors in-order to make ordering and billing process smooth.

CHATZY

04/2022 - 05/2022

- This web app is basically build to chat among people. For the frontend, we had used React, for backend Node and for storing chats and user data Mongodb.

WORKATHON - SPORTS GROUND BOOKING SYSTEM

02/2023 - 03/2023

- We had developed a platform where people will have the access to all ground and turfs and they can even book in advance for those facilities.
